CENTRUL SENIORI SENSE

Where every day has meaning

A promise kept

A few years ago, I went through one of the hardest experiences of my life, when my father needed care in a senior centre. There, I understood how much respect, peace, attention, warmth and a sense of home matter.

My father said to me:

*"Promise me you will create a place
of your own, where people are
treated with dignity, love and care."*

I promised him. And that promise never left me.

That is how CENTRUL SENIORI SENSE began: from the wish to create a warm, welcoming and elegant place, built with heart and respect for the generation that raised us.

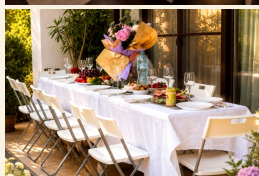

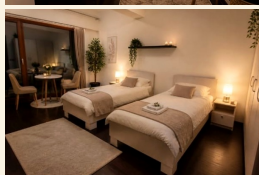

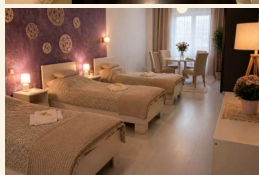

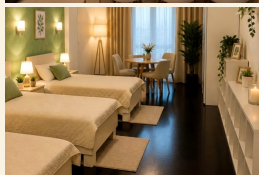

We want to offer:

- Round-the-clock supervision and support
- Five meals a day, prepared with care
- Recreation and social activities
- A peaceful, elegant setting
- Empathy, respect and attention for everyone

Some dreams are born of ambition.
Others are born of love, of pain
and of a promise to a parent.

Happy birthday in Heaven, Dad!

On 5 June, I dedicate the official opening of Centrul Seniori Sense to you. This is the promise I made to you, and today I am keeping it.
